

marine FASTENERS

For 30+ years **Marine Fasteners** has remained relevant with our customers by understanding their challenges. We provide effective solutions with our stainless steel fastener offering for pumps valves and other highly corrosive environments.

COMPETITIVE PRICING & HIGH QUALITY PRODUCTS

- As a master distributor and part of the Würth Group, we remove the high cost of additional buying layers and pass the savings on to our customers
- Market pricing adapts to nickel fluctuation
- Our hardware comes from the highest quality domestic and import sources

PARTS & INVENTORY CONTROL

- Our goal is to alleviate your administrative burden regarding parts inventory
- This is achieved by CMI, VMI or Würth CPS® dependent upon customer
- We supply both English & Metric hardware

RESPONSIVE SHIPPING

- Same day shipping, next day delivery available
- Supported by 7 warehouse locations across the U.S. – Florida, Indiana, Pennsylvania, Missouri, Texas, Arizona, Nevada

QUALITY MANAGEMENT SYSTEMS

- Supported by ISO 9001-2008 certification

MARINE GRADE FASTENERS FOR CORROSION RESISTANCE

For greater resistance to corrosive environments, consider 316 stainless or add chrome plating or other coatings over 18-8 stainless.
